- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

- (1) *Type of Information Collection:* Reinstatement, without change, of a previously approved collection for which approval has expired

(2) *Title of the Form/Collection:* The National Instant Criminal Background Check System (NICS) Voluntary Appeal File (VAF) Brochure and the online application process.

(3) *Agency form number:* 1110-0043

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:*

Primary: Potential firearm purchasers. If a potential purchaser is delayed or denied a firearm and successfully appeals the decision, the NICS Section cannot retain a record of the overturned appeal or the supporting documentation. If the record is not able to be updated or the fingerprints are non-identical to a disqualifying record used in the evaluation, the purchaser continues to be delayed or denied, and if that individual appeals the decision, the documentation/information (e.g., fingerprint cards, court records, pardons, etc.) must be resubmitted for every subsequent purchase. The VAF was established per 28 C.F.R., Part 25.10(g), for this reason. By this process, applicants can voluntarily request the NICS Section maintain information about themselves in the VAF to prevent future extended delays or denials of a firearm transfer.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* It is estimated the time it takes to read, complete, and upload documents is 30 minutes. Travel time to the fingerprinting facility and post office is not factored in the time estimate. The NICS Section estimates 4,000 respondents yearly.

(6) *An estimate of the total public burden (in hours) associated with the collection:*

With 4,000 applicants responding, the formula for applicant burden hours would be as follows: (4,000 respondents x .5 hours) = 2,000 hours.
